10/16/92

To whom it may concern,

I am writing concerning
the program which aired on
C-SPAN on Friday 10/16/92
from 8 AM - 9:30 A.M.

First ①, I would like
to say that I watched this
debate in depth. I listened
very carefully to every
question, + to each candidates
response. I personally
thought that this was the
best debate that I had ever
seen. The candidates had to
be candid, honest and
truthful. I also liked the
fact that the 'mud slinging'
was kept to a minimum. It isn't

needed.

I want to next say that I am a democrat, an African-American, and a supporter of Bill Clinton. Unbiased, I think that Governor Clinton scored a knockout during the debate. People say that Governor Clinton says the same things that democrats have said for the past 8-12 years. I strongly disagree. I think that Governor Clinton has the best insight on how to help those of us who are hurting the most. I am referring to working class poor + middle class Americans, who are suffering now from

Too high taxes under the
Republicans. We also have
seen devastating assaults
on women & women's issues,
and a drop in support for
higher education; a lack of
support for the elderly and
homeless, and an abandonment
of almost all civil rights
initiatives.

I think that trickle
down economics, & the broad
conservative platform of the
Republican Party has nearly
destroyed America.

* Finally, I want to
say that I was highly offended
by Mr. Gumsley's remarks. I
think that the 209 people

represented a cross section of real Americans. I doubt that it matters that they were committed or not. It is people with his (Mr. Gumsley?), regal mindset that are destroying America.

The Republicans cannot continue to blame the Democrats for homelessness, poverty, unemployment, lack of decent housing, declining medical care, "Racism", and a lack of respect for women.

Believe it or not, the working people feel that it is time for a change. NOW
