

Dear Sirs,

Denver, CO 80224-1150

Saturday night, November 9th, the segment of 'About Books' which featured Dr Robert Remini speaking about Daniel Webster was, to my mind, the most outstanding presentation ever shown.

His masterful and dramatic portrayal of Daniel Webster held us all enraptured by his mastery of such a treasure in our history. We need more programs which inspire so greatly.

A few guests have buried their noses in their written speeches and bowed on to the boredom of all. Dr Remini was a true inspiration.

Please pass on to him my sincere admiration for his wealth of

Knowledge and elegant presentation

Sincerely,
