Bainbridge Island, WA 98110

Dear Sirs/ Mesdames:

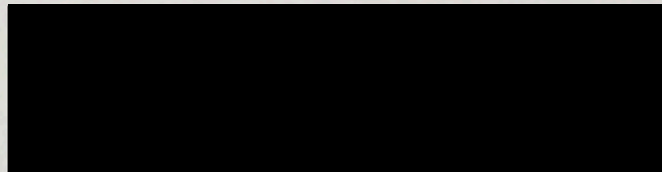

I would like to obtain a copy of the program on Education Reform that aired at 2 PM WST on Nov. 29. Sponsored by the Close Up Foundation, it featured Dennis Doyle of the Hudson Institute and Albert Shanker, President of the AFT. John Melewski was the narrator. I would like to share this discussion with the leaders of our school district and also with the teacher training department at the University of Washington.

Please tell me what to do next; is there a number I can call and pay via a credit card? You can trust me to return payment if you simply send a tape. Or is this even available?

I would also like to receive a guide if one exists. I recently saw a program where California high school students questioned a panel on immigration. Part of a series, there were to be subsequent programs on violence, etc. I would also like to obtain tapes of these programs for use in the classroom. Is this possible?

I hope you have time for a response.

Sincerely,

9810
