 I am hooked on politics in fact I enjoy seeing
 government in action. I find it fascinating to see real bills
 government in action I find it fascinating to see real bills
 being passed, rejected and debated in Congress. I also
 enjoy the call in programs. I enjoy having the Senator
 or Congressman being put on the spot, and answering
 questions from the people of the United States. I have
 called in myself and I enjoyed having my questions answer
 ed by the politicians themselves. I think they are very
 intelligent. I think this is a good thing because it ^{exposes}
 es the politicians to the people of this fine nation and
 maybe they can do something to correct the problems
 with this country. I took political science in
 high school and I enjoy it very much.

I get to see what I learned in action and
I like it very much

Sincerely yours
