

005144 NOV. 591

Sunday 10

Gentlemen:

Thank you for again having H. Ross Perot as a speaker. He tells it as it is in a very honest, down-to-earth verifiable manner... so does John Trifigante of Ohio. They combat the gigantic volumes of 'hot air' emanating from once venerable Halls of the Congress and Senate which, IF it could be properly harnessed -- could heat 75 million very large American homes in the DEAD of an Arctic-type winter.... Sincerely,

USA 19
