March 16, 1999.

Dear Brian Lamb-

When watching your Monday morning show on C-Span February 15, 1999 little did I realize that the Lowell Sun would have a front page covering of George Washington passing through Billerica two hundred and ten years ago. I cut the item out of the paper with all the good intentions of sending the same day.

It was not until yesterday's program that I realized the item had not been mailed.

After watching your program on George Washington at Mt Vernon yesterday I encouraged my daughter to call and ask for Teachers packet. My daughter lives in Beverly but teaches fourth grade

o. Amulreo

• here in Billerica. She was greatly impressed at what I was telling her. One of her students had just recently written about Ulysses Grant. Not only did she write about him very nicely but also volunteered to speak in front of the class and did very well. That was what I considered a very difficult President to speak about for a fourth grader.

Thank you for your very informative programs. They keep those of us who watch very informed and done in a very dignified manner.

Sincerely
