19 Sept 90

Dear Mr. Lamb

OCT 17 ANS'D

I am your "Kendouine County" caller, last spoke to you 7 Sept 90. I complained of "news" people leading the cheerleading, instead of asking hard, objective, questions. I received a sneering, disdainful response from Cragg (?), Houston Chronicle. (But the laugh is on him: we are now hearing more about how the U.S. was in bed with S. Hussein up to and including 1 August. Disgraceful, unconscionable.) I feel the reporters must ask questions about How we got where we are, so that citizens can have more information against which to judge the President's current actions. (You asked how did I know what was happening if it was not being reported. That (Public ignorance) was not my real focus. The real focus was that reporters were treating this 2 Aug invasion as if it were a complete surprise, essentially happening in a vacuum. This left the President free and clear to again wave the flag and issue the call to "Patriotism".)

I set my clock to 5:00m - Monday & Friday, so as to hear those programs. ("Thanks for C-SPAN" - as all others say!)

Sincerely,
