Your caller who "logs" the calls to your guests ignored a very salient factor. What % of calls come from Orange County, Wilmette, Illinois and other average income communities of per household \$200,000⁺ (annually)? The poor damn slobs in the subsidized housing, coal mine region of Tennessee, et al can't call because he can't afford to.

Eloquence, spin doctors, manipulators, what else is new in La La Land East?

Sincerely,
