Dear Mr. Lamb,

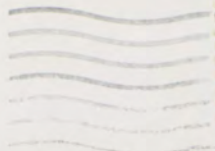

Sunday

I'm a regular listener to C-Span each morning without fail! At the young age of seventy-seven, I'm getting much swifter. ☺ And I know you're fair, amazingly so.

I I've gotten very interested in NAFTA and would like to suggest that you have on (if possible) some outstanding economists to explain to us some of the fine points. Such a mixture of people that are for and against!!! Also, a few prominent business people and a few business and economical professors; I'm tired of the politicians. You and Susan are so wonderful and I thank you.

Sincerely,

[REDACTED]
