

Dear Brian Lamb,

Why is everybody so afraid to make Public the Whole Truth of the Iran - Contra Scandal - naming all those involved and just making excuses for not making it Public - namely they say they can't find all the proof they need - This is just a cover up - (see references by the Republicans - There has been too many well known Investigative Reporters that have written so much about names - dates - places - secrecy - The White House - the CIA - NSD - National Security - There has got to be Proof. or so many people wouldn't be writing about it - so many C-Span Calls asking questions about it - This won't die down - sooner or later this has got to be brought to a head - I am counting on C-Span - and since I believe you, Mr Lamb, to be the best at trying to get to the Truth - and only you could get a round table of all this Investigative Reporters from Barbara Noricker - Tom Wolfe (Confessions of the President) Alexander Cockburn - Christopher Hitchens - Sara Nelson (National Director of the Christie Institute) who has named names like Theodore Shackley - Donald Hugg - Sam Watson - Felix Rodriguez - Edwin Wilson - Thomas Clive - Oliver North - Richard Secord - Sirglaub - Habin - John Hull - Costa Rica Richard Allen - Enterprise etc - How can you explain

all these names away - there are 2 think tanks
that should be fully investigated - like the one that
the Korean Cult Leader - Sun-moon-moon is a member
or maybe the head of - I think everybody is afraid to
bring the Iran - Contra to a Head because Ronald
Reagan (who couldn't tell the truth even if it was written
in his script) George Bush who is a liar himself -
He won't talk about his involvement - that is proof of
something - he lied about the sale of Cocaine he purchased
across the street from the White House so he could make
a point on TV - his Read my lips - I couldn't believe
any Republican who tries to fool the American People
by misrepresenting - to make their point they will go to any
length - The whole episode of the Reagan-Bush
Administration and any one connected with them -
or who tried to cover for them - including The Network
News - White House Press - Commentators etc.

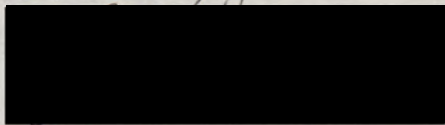

I believe in C. Spahr - I think unless you bring
this to a head - sooner or later - the Power that censors the
Rest of the Media - the 3 Network News - will eventually
censor C. Spahr - Hearst News and CNN. - Please
don't let me down - bring all these Reporters who were
brave enough to publish the Truth - like Dr. These Times -
The Nation - Mother Jones - The Progressive - etc - All
these Political News can't be wrong - Don't forget it took

a Foreign News Paper who originally broke the news - Will the Iran-Contra Scam allow The Reagan-Bush Administration deny long enough until the American People will believe it never happened - just like the Germans are saying the Holocaust of the Jews never happened.

I just wrote this section of my letter today, Dec. 31st. 1990 because the Iran Contra was brought up again by a caller - and your guest Reporter said they didn't have enough proof - Well - Mr. Lamb - until you get the Writers of Books and Editorials in Political News Papers and Magazines all together and ask for their Proof. - this story will not be quiet - it will come up again and again. Mr. Woodward - who talked to Bill Casey before he died - surely knows something.

Please bring this Iran-Contra Scam to a head once and for all - too many People want to know - callus on your Call in shows keep bringing it up - Plus People like me who write and want to know -

Sincerely,
