Dear Mr. Lamb:

I am a long time viewer of C-SPAN and I must tell you how much I enjoy the wonderful programming put forth by the staff of C-SPAN under your direction.

This is an invaluable service that should be made available to every home that has television. I feel the same way about C-SPAN 2 which is not available on our cable system as yet but it is of my opinion that all cable companies should, before they are granted a permit, have in place the ability to provide C-SPAN and C-SPAN 2 on an elected basis before being allowed to operate.

I watch all of the programming that time permits and would select the House coverage, Congressional hearings, Journalist roundtable, Booknotes, and viewew call-ins with members of Congress high on my list of preferances. My love is for the Senate though. I have had the opportunity to watch C-SPAN 2 on a friends set thanks to his cable system providing it.

On Booknotes I would like to see the publication date of the book added in along with the name and address of the publisher.

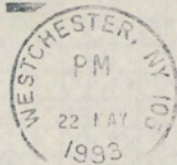

Thank you again for the excellent service you are providing for us.

Sincerely yours,
