Dear Brian:

Your book notes pro-
gram with Moley Luvins
has caused me to remove
Television from my home.
I am 81 years old and
am embarrassed at the
vulgarity on television &
the movies - my last movie
was Airport 75 - Bing Crosby
& I saw it - 2 years before
he died -

We should be ashamed
Brian to do what we are

doing to our wonderful country - I grew up in the depression (1917) we had very little but we did have morals and honesty.

When Mally Joins asked if she could use those vulgar terms I knew you would say no - you said, "I can't but you might." My 8 year old grandson asked, "Grandpa what is a prick?" I wanted to smash you in the face He's mother said, "Christopher your Grandpa never used words like that and did not allow it in our home." And here you and that vulgar bunch came plunging in on your own. I turned you off

And gave the TV to
the Salvation Army today.

I am no prude Brian
but I am discrete —

I have been appalled
at the use of oral sex
and anal sex of late
simply because we do
not stop it. Our enemies
set us to fight for
freedom — Americans must
be censored they are in-
capable of facing the

fact we are the only
animals that use the
mouth and anus for
sex — and we know
better.

I'm sad at this —
you so good things.
