Dear Mrs Copeland,

With your credentials I was discouraged to hear the elitist "follow the great leader" come from you. What rule says you can't call a spade a spade, a manipulator like Bush an opportunist who creates his own set of rules? Why didn't you gently suggest you can't run an election in Kuwait? The last democratic "election" there was 1917!! To change American philosophy of government we endured 5 years of bloody confrontation in 1860-1865. What a sad statement to hear our press pussyfoot - afraid of losing a job?

Sincerely,

A discouraged American
