Dear Brian:

I appreciate the manner in which you tried to keep President Clinton's biographical sketch in a positive light. Having learned many good things about him, it is very easy for me to like him just as much as when I voted for him in 1992. And I understand how earnestly he ^{has} worked for the good of this nation. He deserves much praise.

Yet, in the follow-up, as viewers called in to comment, it seemed as though the "Clinton-haters" were amassed on the lines to continue their "war" against him. Their negative expressions against him only helped me to believe the recent news reports, that one in five of our citizenry is mentally unstable and in need of psychiatric counseling; for as the Bible states : "ANGER RESTS IN THE BOSOM OF FOOLS." These folks were still angry.

Subsequently, John Fund, another fool, extended the hatred of these vitriolic, maladjusted callers. I've seen Fund on the program before, and am aware of his opposition to this President, whom he asserts is a "liar". What he forgets is, we all lie; especially if it hurts our family, not to do it. Those who have constantly badgered him (the President) from the day he assumed office, to the remaining months of his term, ought to get off the "I despise Clinton" circuit, and exercise common sense and stop the stupidity; for I sincerely believe that Mr. Clinton, in his life after he leaves office, will succeed financially and prosper spiritually, while his most vocal critics will struggle to merely survive. This is the law of "sowing and reaping."

Regarding another matter. I wish you would alert people like Ms. Sorenson, who also appeared on the program, that the "United Nations"

grew, not out of the "League of Nations," but its fore-runner was "THE ATLANTIC CHARTER" (Funk and Wagnalls Encyclopedia, Unicorn Press, 1951, Vol. 34, p. 12,508). It is unfortunate that, either so-called scholars don't thoroughly research what they present to the public, or they are content to revise history to suit the times in which we are living. Further, Franklin Delano Roosevelt was the architect of the U.N., along with other world leaders. Truman had nothing to do with it at its inception.

Thanks for allowing me to intrude upon your day.

Respectfully yours, [REDACTED]
