Re: The New C-Span - 3 hour call-in show.

Hi:

Thank you for your wonderful work of mostly unbiased coverage of American Government.

Your work would be much more credible; however, if you had a trustworthy, intelligent, well-informed spokesman for the thousands of us who can not get through, to, or past the switchboards - to give an intelligent and timely response to the twisted "Beltway Spin" of the supposedly balanced panels of media persons on your show.

Tens of Thousands of us would feel much more comfortable about your lack of "Establishment Bias"

if such a person were made a permanent "People's Spokesman" member of your panels.

You could even give them the title "Demagogue" in keeping with the Establishment propaganda that anyone who represents the interests of the 60% to 75% of "throw-away" Americans on the low end of the economic scale, could not possibly have a worthwhile point of view.

Four such persons who might be willing to participate, and who I believe might be acceptable to your viewers, are:

Professor Noam Chomsky, of M.I.T. presently teaching near D.C.;

Senator Ernest Hollings, whose sincerity is clear;

Senator Byron Dorgan, whose views coincide with most of us;

Representative Marcy Kaptur, a real spokeswoman of America.

Sincerely,
