Dear Sirs:

I don't know whether you did a favor for the American people or not, when you found it necessary to devote all day Saturday to those whining, gossipy, untruthful bunches known as the "Conservative Political Action Conference". What a performance!

The segment with Tony Snow, Cliff Jackson, and that great example of manhood - David Brock, left me ill.

I'm tired of all their innuendos and uncooperated facts. They delight in criticizing the legitimate press in order to stoot their own horns.

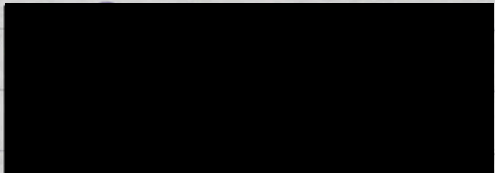

I believe in equal time for all groups, but get these hate mongers out of our hair. They have no proof for their accusations, but sure love to throw out bits and pieces to arouse and confuse. What is their agenda? Crucify Bill Clinton? (Limbaugh is the dean of that.)

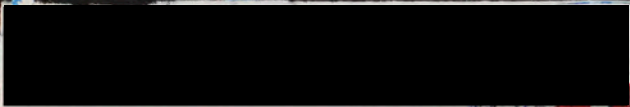

I feel C-Span should not give them such an exorbitant amount of time.

The majority of the  
American people can see  
through these "slime bags".  
Mr. Clinton is being investigated  
Leave it at that.

After listening to that  
"bombo", Elaine Donnelly  
expound on homosexuals  
in the military as a so-called  
expert, I tuned you out.  
She was a prime example  
of the ineptitude of the  
Conservatives.

I'm looking forward  
to more balanced broadcasting.
