CSPAN Networks
Suite 650
North Capitol St.
Washington, D.C. 20001

Gentlemen:

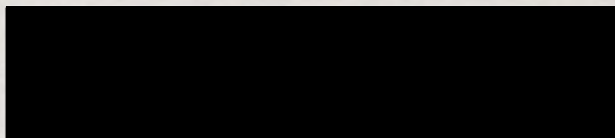

I had to leave home the other day while engrossed in watching a CSPAN program. It occurred to me, while driving, that it would be so enjoyable if I could continue to listen to CSPAN on the car radio.

Have you ever considered simulcasting CSPAN TV on radio. Possibly a national transmission something similar to National Public Radio.

I think this is worthy of consideration. So much of the radio dial is dominated by the tastes of the pubescent constituency.....kinda leaves the ripe segment of the population out in the cold.

At any rate, please consider the suggestion and let me know your thoughts.

Thank you.
