~~Dear Sirs~~
~~To whom it may concern~~
~~Open to all~~

I am getting so tired
of almost every one that comes
on the news, always it
seems are always against
every thing the President
try to pass to help the Working
class of the Country. what
he got passed he sure had
to fight for. All the Republicans,
were against him, from the
start, the same way they
were against Roosevelt,
he was going to run the
country he was the only one
that got us out of the mess
that Coolidge or Hoover I
don't know which one now
now its the same thing going
on with Clinton

any one that try to help the
Working class, & the poor always
gets the same kick in the
pants nothing good that he
does. they talk about.

the other day I heard on the
news about starting all
the wars, they very well
know that, Reagan & Bush
was the ones, and the one
was on the news with the
one that said it, said to him
you know very well who
started it you know it was
Reagan & Bush, but Clinton
getting the blame for it
very time a war is started
it always a Rep, in office
now come, and the Dem.

always gets the blame I am
87 yrs old and I watch the
news all the time, and

3

not only that you always
wants us to write but I
never hear any better read
much on the news I
wishes people would wake
up, we dont want one more
of Reagan, or Bush, I guess
that want some one like
Bush, so he can cut the
Rich taxes again and raise
the taxes on the Working Class
again, if some one can have
a party and spend millions
of dollars I think they can pay
more I heard on the T.V.

Yesterday they went over seas-
for it, 1/2 millions for the big
flame from England. 3 jets
40 big birds while they were
there 6000 chicken \$100.00 ^{each} ~~each~~ \$1000.00
and some ~~birds~~ 4 to 6000
deserts if some one can they
can pay all little more I think

aford that kind of a party
One pay more Taxes then the
Working people. If it was me
I would be so ashamed to
have it on the air with
some many people hungry
it this Country & little of
kids going to bed hungry.
I guess they have no feeling
what ever, and now some one
come along trying to help some
one that needs it, and all
I hear from almost every one that
he is ruining the Country
because he wants to help
the people who needs it. God
bless the Rich doesn't need all
the breakes. I hope you like
him enough to put on a few
things I have said
