Dear C-Span Friends:

Thank you, participating networkers for giving us C-Span. Your service to the American people is magnificent - what television should be. It helps in clearing away the terrible "wasteland".

Now we can see and hear our President and other responsible Government officials - plus various experts in fields important to us - You have made it possible, unfiltered by reporters. Hurrah!

This morning (June 2-'93) you helped me understand the Bosnia - Herzegovina situation better when you presented Mr. Allen Elsner of BBC - Foreign Affairs on the 8:00am EDT. Call-in program.

He was superb. He discussed the "ethnic cleansing" being carried out by the Serbs - plus other important foreign affairs.

Please, please bring Mr Elsner back again to bring his clear picture of what is happening in our world today. We need his enlightening explanations.

Again, thank you ^{9:59} for helping us to more fully understand. The ^{11:11} "moderators" (if I may call them that) are simply GREAT. Their balanced handling of your programs is much appreciated.

Gratefully
