Re: 22 March call in with two columnist-authors  
23 March call in with General Bruce Scowcroft

As a retired teacher I view you as above all a wide and wonderful teaching vehicle. It concerns me greatly when callers and/or guests give inaccurate information as facts and no one responds, contradicts, or at least cautions further research into the statements.

Thank goodness our San Francisco Chronicle writer spoke up and was correct about this President's six (6) two year terms as Governor of Arkansas. It looked prejudicial as well as ignorant of the other writer to insist on two (2) terms, and emphasizing the one (1) defeat. Defeated once he was, as you can read in many places. I think it still is far more important that any writer do good and accurate research before parading prejudice as knowledge.

Today a caller speaking to General Scowcroft, made several inflammatory, negative statements as fact regarding our President as a young man and again no one in anyway took exception. Right after that someone needed to ask the woman whose high school youth will be visiting Russia if they will be bivouaced in private homes or hostels, because in years to come this visit may come back to haunt them as exampled by the unfairness of the prior caller regarding President Clinton's college tour there. And how could anyone sit still

for that "burning the American flag and marching in Russia" farce and let it go unchallenged? "Considering the source" only allows for so much license with the truth, when it is so prejudicially slanted.

Generally I give you my 99 44/100 percent pure rating on this marvelous open window on the real world. However, I could not help but want to help make the form of your forum more true and fair, even if that concept is old fashioned.

Thank you very sincerely for this good and great service.

Another C SPAN junkie

All inaccurate statements  
or comments should be challenged  
by you and corrected at once. I have  
been a life long Republican but  
"off the wall" comments in any vein  
should not be condoned.
