Dear C-Span

3359-90

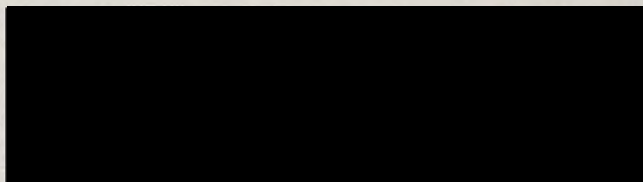

I Am writing in Frustration After
The news Has Reported How the
Congress of the United States Has
Failed its constituents in not
Having Approved A Budget in Time
to Avert our government from shutting
Down. With individual Congressmen
Blaming any number of things as to
why this problem exists AND A
President who Disregards the
Electorate. I think Electronics
is the Answer, A simple Nielsen
Type Response Box in the Home
of Voters to Let their wishes
prevail. After All, Representative
government was set up Because
there wasn't any of the

Communication capabilities we
have today. God Bless CSPAN.

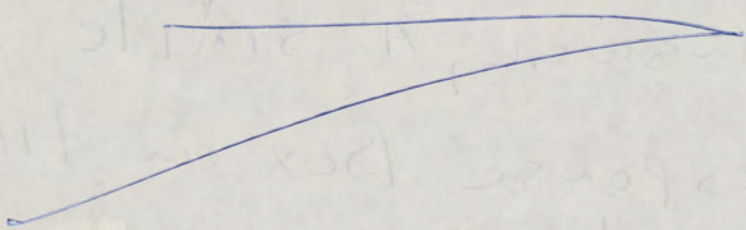

Respectfully

Rotonda west FL
61356

P.S. Lobbyists and special
interests will be virtually
eliminated. It's the truest
and purest form of
Democracy
