Dear Brian,

I watched and listened to the Washington Journal on which you had Daniel Shorr and Hugh Sidney as your guests.

I know an essay is too long to read. My hope it may serve as a subject for a follow up program on the Washington Journal

Thanks, [REDACTED]

Enclosed: Essay TRUTH

G.WJ

TRUTH

ESSAY

The scandals involving President Clinton and the White House are such as to make it mandatory that the truth be known.

The only possibility that the truth will be determined is the honest work of the independent council and his staff. The independent council has a very difficult job for President Clinton is the target of so many allegations and politics so much of a problem.

At this point in time we must accept as the truth the statements of those involved.

President Clinton has told us he had no sexual relationship with that woman, Ms. Lewinsky. He told us he has never asked anyone to lie. We accept this as the truth until proven otherwise.

Linda Tripp tells us she taped the phone conversations with Monica Lewinsky to protect herself after she received the subpoena to testify in the Paula Jones case. We accept this as the truth until it is proven otherwise

Kathleen Willey says that President Clinton kissed and fondled her in the Oval office. We accept this as the truth until proven otherwise.

Gennifer Flowers says she had an eighteen month affair with Clinton when he was Governor of Arkansas. We accept this as the truth until proven otherwise.

Paula Jones says that Clinton when Governor of Arkansas exposed himself to her and propositioned her in a hotel room in Arkansas. We accept this as the truth until proven otherwise.

Monica Lewinsky in a phone conversation with Linda Tripp said she had a sexual relationship with President Clinton and that he asked her to lie about it. Monica Lewinsky said in a phone conversation with Linda Tripp she told the President she would not lie about the relationship or being told to lie unless she was given a good position. Vernon Jordan a close friend and adviser to President Clinton did get Monica Lewinsky a \$40,000 a year position with Revlon Corporation. Monica Lewinsky in a deposition under oath said she did not have a sexual relationship with President Clinton and she was asked to lie about it in her testimony in the Paula Jones case. We must wait until these conflicting statements are clarified and the truth is known.

We have no choice but give all involved the benefit of the doubt and accept what they told us is true. The independent council has the mandate to tell us what the truth is.

There are leaks that identify allegations and some of what was supposedly said by President Clinton in his deposition and some grand jury witnesses. We do not know who

TRUTH

is responsible for the leaks and if they are the truth. It is best these be ignored until the independent council submits the report on the investigation..

WE The People want only the truth. We have no political agenda.

It is obvious that all involved have not told the truth. The truth may never be determined. We must depend on the independent council to find the truth. This may prove impossible in some instances. We then judge for ourselves and decide who told the truth.

The media will not wait for the truth. We must.
