Dear Mr. Brian Lam

This morning you had a caller accuse Rush Limbaugh and Pat Robertson for causing the terrible tragedy in Oklahoma City.

I watch and listen to Rush everyday like I do G Span.

He voices outrage at stupid ways our Government runs things. He points out President Clinton's lies, mistakes and goof ups. He has never endorsed violence against any Government Agency, Building, or Person.

He works for change through legal channels. If that lady would have listened to the beginning to

his show last night
He said People should get behind
Presidents Clinton efforts in capturing
the ^{perpetrators} ~~crooks~~ and bringing them to
justice swiftly. He also said
this is a time to put politics aside.

He never said any country or
group He said if any group lays
claim to committing this tragedy
against innocent people and children
we should do everything to punish
them including bombing where their
bases are, Like President Reagan
did against Kadafi and Libya

I wrote you about a Book Notes
show you had with the author of The
Lies My Teacher Told Me.

Once again he is a extremely dangerous person and should not be aloud to teach at any level of School. It is big cause of why our kids now days do not know or appriciate our History.

Please let me know if anybody else including yourself agrees ~~with~~ me.

I know you do not take sides unless someone attacks the media then your hackles raise. I just hope the next time someone attacks Rush for something he didn't do, he only tells people to vote he does not even give out phone numbers of Senators, Congressmen or the White House. You correct them.

Keep up the good work.
You are basically fair to Midland
opinion wise.

Sincerely Yours

I have a suggestion if someone
complains about something Congress or
the Senate or President Clinton does
ask them if they wrote before the
vote to voice their opinion or just
complain after.
