Re: The 9x16 movies.

□ Why can our engineers help the public-viewers find the right T.V. set for 9x16 movies?

$\frac{4}{3} \times \# \text{ " T.V.} = \text{the required T.V. or better. } 27 \text{ " T.V. is our answer.}$

Or else, the public-viewers wait for future HDTV, without letterbox.

004300 SEP 30 91

□ Would the public-viewers love
1x5.333 panorama view, with
digital Hi-Fi Stereo Sound, along
side 1x1.333 T.V. and future
1x1.777 HDTV?

$$\frac{1}{5.333} = 4 \text{ T.V.'s} = 3 \text{ HDTV's.}$$

Please send a video or postcard
to: FCC

Washington, 20554

USA

Thank-you for "listening!"

I want my 1x5.333 video-games!
