To C. Span CC: S. Trahern ✓

Your guest today David Morrison of the National Journal was superb. His credentials are excellent and his manner is one that can help people open their minds — to think instead of accepting whatever our government hands out.

The woman who called in to approve of the Hitchens-Horton debate on CNN yesterday gave a list of people she urged you to consider as guests. I strongly second her suggestion. They are people whose voices are rarely — if ever — heard on the media.
