ESSAY

I watch C-SPAN because it is the one network that furnishes all of the facts concerning national and international issues. In this era of emotional and partisan rhetoric, C-SPAN provides a refuge that allows us to hear the factual and expert testimony presented to the many committees chaired by the House of Representatives. Because of the live coverage of the House floor, the citizenry is able to see how the government works, and how the representatives use the information obtained by the committees.

During the call-in programs we not only hear other experts, but every citizen has the chance to air his/her own views and question these experts.

C-SPAN is the only network that provides a forum for a three-way dialogue between the people, the experts and government representatives. By listening to this continuing conversation, I am becoming a better informed and responsible citizen.
