C-Span -

On Sunday afternoons you usually replay public policy conferences, etc. Twice I have been watching one of these replays and at 2 PM a Church service from Augusta Georgia breaks in. I called my cable company and they said you are choosing to broadcast the Church service. I argued with them, questioning why C-Span would be interested in Augusta church services. They, of course, denied knowledge of anything.

If it is, as I suspect, my local cable company the culprit, please let me know so I can confront them. If it is C-Span - quit it! Anything is better than an Augusta Church service. They all ready show Church services on major

networks as well as other
channels. C-Span does not
need to be showing them also.

Regardless, thank you for
C-Span. It makes me realize
I am not the only liberal but
that conservatives have more
time to make phone calls!!!

Thank you for your time

Aiken, SC 29803
