Sept 1-98

Yesterday: Fri Sept 1, today another day
Another conservative this AM and
calls that are awful from other Right
Wingers. One caller even said that
a class in the sixties could learn
just as well as one smaller against
all the records. Also one reason our
country has done so well is the separation
of church & state. So your guest said "why
can't the tax money follow the child?"
It's so depressing to hear even
Susan require a listener. I keep
hoping C- I pan will go back to
2 people on to discuss opposite points of
view.

1 1/2 hours awful guest full on
