Dear Friends: May we convey our highest Compliments to Your Station on its fine quality presentations. We enjoy, with respect, your news programs, including Call-ins with every diverse perspective; your book discussions, your well informed and patiently "Gniet" hosts. May we particularly commend the program with Brian Lamb talking with Judy Shelton, Roger Kennedy, and James Fallows. How kind and real they were - how refreshing after listening & seeing too sour lemons, the Beckburns!
