Dear Mr. Lamb,

This letter is to express my opinion that television coverage of the U.S. Congress is essential for the people of this nation because we will see how Congress works for the best interests of the country on a bipartisan basis.

Do continue your efforts to a more open view of the processes of the legislative work which Congress has been elected

to do.

The efforts against term
limits has resulted in its first
vote but the battle has yet to
be won.

Sincerely yours
