Book Notes:

I watched Sunday nite and Monday morning, waiting for the question to be asked of MR. J. Bowyer Bell, about his book "the Irish Troubles", why did the I.R.A. plant explosives on board the fishing boat of Lord Louis Mountbatten, which caused his death.

Sure I can spend the \$35 dollars, and buy the book, but is that situation covered in Mr. Bell, s book. I myself have been very dis-appointed in some of the "Book Note" interviews, where to me, the interviews, do not get into substance. The Program idea I like, But.

SINCerely,
