

9/3/93

To Whom it May Concern;

I was looking forward to your live coverage of Rush Limbaugh to day, but I'm sort of glad he cancelled. Because as a fan of his I do have a few complaints.

They are as follows:

1. He "never" tells the time of day or what day it is. Not creditable?
2. You only get 18 min. of talk (maybe) per half hour, the rest is commercials.
3. I understand why the Media calls us robots - only an idiot would or could listen to the same commercials for 2 1/2 hrs. every day, every week and every month.
4. He only takes calls that suite him on any given day. Half the time, I think the show is taped, not live as he says.

The above apply to his TV show also but if you tape it, you get 22 min. of show and the rest is fast forward and onward.

Over Please

I really don't think he is sick sick, he cancelled because he would not be in control. Control is most important for an ego test. He may accept an invite to your Viewer Call-in, but I will be very surprised if you get to tape the lion in his den so to speak!

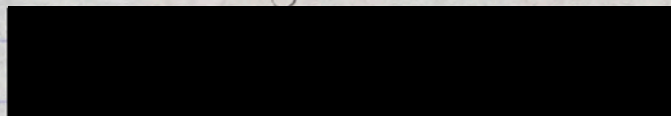

After all of this I do agree with what he does say. This country has needed someone like him for a long time - telling their side of the truth and backing it up with facts, Not like the "Media" stories on this or that"

The key to Rush is, he takes these stories and converts them into fact or truth. ~~The~~ truth may be his impression only, BUT IT IS NOT A "STORY" the word story is not in his vocabulary. I could go on go on go on for ever.

Viewer Call-in is a great show. I think the American people are sick of sciocismen - Bosinea - Israel - Egypt - Somalia - and "STORIES" in general.

Over Please

Sincerely

P.S. you have my permission to
~~you~~ use this letter any way you
want.
