

## Washington Journal

Saw your Program 6/30/97 a question was ask of your guest who do they think is a good Politician. Well it should have been an easy question to answer, there is only three in our nation today that are for America and the American People they are, Wellstone trotsman, and Ralph Nader, starting from the President down the Rest have sold out the American Workers sold there souls to the few Powerful Wealthy of our Nation, sold there souls to Corporate America, despite all the stories you hear how great the economy is in America, how low the unemployment is in America the truth is there's only a small Percentage doing well in our Nation today, on the last ten years as Corporate Profits have tripled the Workers in America have seen there wages and Benefits drop every one of those ten years that is a fact they have seen the jobs that paid good salaries Manufacturing jobs just about disappear in America is shipped to Mexico over

in Asia thus the reason for corporations  
trampling there profits Poverty up 28% in  
our Nation yet never talked about it. A  
Welfare system implemented telling people  
you must leave Welfare in five years  
or lose it, Wisconsin the Model Welfare  
Reform state a 35% drop in Welfare has  
a governor admit he doesn't know what  
happens to those people they don't keep  
statistics, there in the streets on the  
jobs they do get send them home with  
around \$600<sup>00</sup> dollar a month try living  
on that in America. As a retiree I see  
an hear People talk of these children leaving  
College only to find the best they can do  
in the job market is \$7<sup>00</sup> dollars an hr.  
Isn't that great, I made \$15<sup>00</sup> an hr. with  
an Eighth Grade Ed. This is the true  
America today, we are about 5 to 7 years  
away from 1929 the day's the Conservative  
Control Politics in America, there belief  
Rich an Poor, an maybe the Rich will throw  
down a bone once in a while for the Poor  
I love these Southerners that call in the south  
leads the nation in Poverty yet these

so wrap up in Racial hatred they  
will stand on a soap line before they  
can see what a conservative is about.  
The South was the beginning of the  
downfall of good wages for the American  
Workers, as they lured Plants from all  
parts of the nation working for cheap  
wages. No Benefits are the assurance of  
keeping Unions out of these Plants, that's  
the mentality of a southerner. They call  
your programs constantly nothing of  
substance to say, just garbage talk  
about Clinton his morals his beliefs his  
girlfriends. In the meantime Clinton  
is his conservative philosophy which those  
to stupid to see has helped move all  
these <sup>labor</sup> Cheap Textile Plants to Mexico and  
Asia for cheaper labor than they find  
there. Some day I hope they will begin  
to wake up and realize, all the scandals  
all the Racial talk to purposely divide the

People was a Calculated Plan by the Conservative  
Party to get control of Politics in Washington so  
they could bring back the Politics of 1929, No  
Unions, No Benefits, No Medicare, No Social Sec. On sweat shops

Great Idea, that guy Tyrell  
of the American Spectator is  
only missing the little Bird  
& then he would be a complete  
Cuckoo clock. He's one tick  
away from being sent to the  
ferry farm.

You asked David Shambaugh why  
do's our news coverage about a celebration  
of Parades or Fireworks in Hong Kong when  
they changing from a Democracy to a  
Communist Government, the answer is simple  
all the American Working People know &  
our Government has to kick China's  
Boots so our Corporations can have  
using there One Billion Population  
for cheap Prison labor to make products  
for them that were once made in our  
Nation by American Workers who now  
find themselves in cheap labor service jobs.
