Dear C-SPAN:

You are the last best hope of this nation. Should the timid and easily controlled national media fail to assume its basic responsibility--as it currently is doing--we may always depend upon you.

I personally believe that the anti-war movement is huge and that the media shows its bias by too often failing to present the opinions of strong anti-war people...by "strong" I mean people who state their opinions with clarity, good logic, and some knowledge of political and historical fact.

PLEASE STAY AS SWEET AS YOU ARE and don't let such bias enter your programing.

The polls are probably manipulating public opinion. Many people think so. PLEASE DO PLAN a comprehensive, ongoing seminar on polls and their significance on the national scene. Many university sociology departments would cooperate with you.

Thanks for everything you present regarding Economic Conversion--our best hope for a sane nation.

What has happened to national humor? Sen. J. McCarthy of Wisconsin immediately lost power when we began to laugh at him. Remember the 'point of order' song by Spike Jones? Now G. DeWitt of Seal Beach writes LA TIMES: "When Hollywood makes the inevitable "Norman Schwarzkopf Story," will Jonathan Winters be ready?" LOVE TO ALL, 

08950
