

Why Do I Like C-Span?

Why do I like to watch C-Span, you say?

Open up your ears; this listener tells you, today.

C-Span doesn't waste my time telling me what to buy,

Or what to smell, or what to try.

It doesn't give only one side of News,

Or cause my nerves to sing the Blues.

Its words are not full of clatter that speaks

Of a World so very, very sad, even bleak!

C-Span does offer a Vista of Choice --

It even offers more than one "Voice" -

Thereby showing Life's balance - some things Good, Some Bad.

Yet, never makes me feel that I've "been had".

C-Span tells me how things really go -

Includes good humOr as well as "I told you so".

C-Span paints a true picture of Our World -

Our Flag rolled up: Our Flag unfurled.

Of pro's and con's; victories and defeats

When We stand up; when We are glued to our seats.

I can watch and see how a World really turns -

But, no need to run out and eat worms.

C-Span comes to us with dignity, in sunshine or rain.

Even expects us, too, to use our brains!

"There's a tomorrow", it seems to me to say -

"Folks, let's try to do better than we did today."

Unlike other broadcasters who twist and slant the News,

Saucered and blowed the way they and only they choose.

Ah, there's the SECRET - Don't you agree?

C-Span gives Hope and gives Pleasure to You and to Me!
