GLOBAL BONDAGE Author and radio personality Cliff Kincaid blows the lid off the United Nations, documenting its strategy for gaining complete control of the world! The U.N. is now out in the open with its plans to establish world government -- and back it up with the punch of its global army! Cliff warns that the U.N. is rapidly gaining ground, and if we don't stop it now, we won't get a second chance! Kincaid exposes the U.N.'s plans for global taxation, an International Criminal Court which could prosecute Americans, forced abortions and sterilizations, U.N. efforts to destroy the traditional family, U.S.-Soviet "peacekeeping" cooperation, Soviet officers commanding U.S. troops, transformation of U.S. soldiers into "U.N. Fighting Persons" and worse. (Softcover/203 pages) **\$14.95**

Dear Brian,

Thank you for the tremendous work you have done toward healing our country by trying to close the gap between The Far Right and the rest of the country.

One of the greatest fears of people on the Far Right seems to be "The New World Order" (a united world) which supposedly will bring the Anti-Christ + other horrors (see article above). This ties in anti-Semitism: "Jews are part of a Satanic plot to unite the world" (from the Christian Identity Movement belief system). 1997 Intell. Report, So. Pod. Law Center, p. 9.

Brian, you could help these people immensely by replacing, with Truth, all of the misinformation + conspiracy theories that have been fed to all of these people, mostly by Right Wing Hate Radio Talkshow hosts.

If you had the appropriate guest on your Washington Journal program

1 This could be done, since they avidly follow C-Span.

The person well qualified for this task might be Elizabeth Drew, Washington D.C. journalist who studied Far Right groups in D.C. for several years + wrote the book "Whatever It Takes". (She was recently on Meet the Press + other TV programs sharing the confidential tip she received that Newt Gingrich was meeting with his closest political allies talking about a plan to Impeach both the President and the Vice President! The Speaker has gone ballistic ever since that information has come out. On the offense?)

But, most importantly, she knows Right Wing Groups + their thinking. If they lost their fear + anger, it would help our whole country, as well as themselves.

Very best wishes to you,

Gratefully,
