Dear Brian Lamb, @ C-Span,

Good Morning to you & Good Morning, God-bless you &
as close to your panel:
Its 9:30 A.M., and I just checked in w/ your

newspaper panel, w/ variety of subjects, that gets more
voice on more subjects. If I could get thru, I don't have
the telephone to phone - So, am rushing to my DR
table - to write about something I've NOT heard addressed
during any of the "people programs", & would like to
hear addressed, please.

#1 - with a very young president, I want to clearly
& definitely register my personal objection to the
"monster", Port Barrill is strong enough - law? -
of once a man has become President, when they "go out"
→ we the people SUPPORT THEM for the rest of their lives!
I know of NO job that would come close - even in 4 yrs. -
It is ludicrous to perpetuate this on we the people -
And, for people who are able to make huge amounts of \$, in
all of their future, home & abroad. They should earn
their own way, & able to w/ their visible experience, which
is obvious they are. This should be stopped, as part of the *
Clean up improvements.
We hear constantly, certainly by the rich, who either never
knew or have forgotten - jobs will be lost, but, use your
ingenuity, "you may not be able to earn what you did" - BUT -
Certainly not even a reasonable cut - Dazed & crushed with
no place to go, lost homes & more - Companies who jump
into all this, to keep more, heartless, concerning workers
who worked them to their standards, & growing moral looseness
that too often comes w/ jugged up EGO's - Pensions are - gone
w/ the jobs - where will it all end? Iniquity who have-hated us
since "we took their land" - (we lived there a few mos.)
& try to get in & out of there w/ their police like guards! -
etc.) Now, we will give them the work, w/ our people out of work -
& "Foreigners" swarming our country illegally, & staying to

be absorbed in a troubled work place - & bringing, their
anti christian gods, to swamp our country - staters that
wrought destruction, plotting & accomplishing - Take the
World Trade Center fiasco, riots, murders of all kinds -
a growing: do what you want to do, w/ NO consciousness
of a God of order & ~~right~~ ^{for best living} abortion for gain, the
homosexual fiasco on the White House Lawn, a disgrace
before the whole world, & the debauchery, some, CHOOSE,
degenerates, even by sight, - shouting their "choice" - etc.
& a President who skipped out to another state - etc.
This wasn't what I planned to write - it falls out of me -
& maybe C-Span will somehow make a mark - I enjoy
looking in, & seeing Congress @ work - Well, there's
still my #2 subject, concerning jobs -

→ #2 you hear: Think up a way to support yourself &
your family, hard work, things are different "NOW" -

Mothers who need to be in the home, caring for our children -
have always earned \$, by also helping working mothers -
WHO WANT their children w/ less trauma, in their working -
* IN A HOME atmosphere, w/ the mothering attention!
Now the govt, has their sticky fingers in that w/ impossible
new rules, of many kinds - doing far more than their own
mothers do; (^{to become} like structured child care institutions - &
mainly, @ high cost to mom's or dad's, & had always by
safe carers, etc. etc.) How can a desperate mom w/ her own
children to support - w/ dead beats, run off husbands &
women who chased them, w/ no ♥ or morals - "Take what you
can get" by males who gladly go to "new". I could write a
book on that - but my issue is - Let mom's earn a
living, IN THE HOME, w/ good govt intervention, * So those
who want home care - & keep the "home mom", off welfare -
earning her own way. Her benefit is being a home maker, &
it is a difficult job, that also takes toll on her home, too -
But: a way, to benefit the home mom, the children she cares for,
& their parent or parents. If a parent isn't satisfied, they'll find
another home care mom. Do one thing, to improve life, &
many more problems, crop up - Just as I've mentioned. I'll stop,
now, altho, I could elaborate, gratefully for your input to us,
much more. grandmother Marian, who's
troubled about many things.

P. 5,

We The viewer
who care about
what's happening
in our world -

Are interested and
caring, about the
issues brought before
us, before our eyes -
rd. in our home Think stations

Never, before, have we
been spellbound by
blow by blow, being
there - even of a
100 day WAR. And,
The war concerning

Israel, The land God gave

for The Jews homeland;
a huge ongoing battle -
that will never end, &
began, when Abraham
fathered two children,
by 2 different mothers,
& the on going jealousy,
for the "rights" of - both -
we see: riots, murders,
gangs w/ hate & destruction,

good. & put sector
"goings on" - troubles,
everywhere

When I think of our
3 grown "children"
now w/ lives of their own,
& their children
all so different w/ differing
ideas - & their children
w/ big ideas far
differing than their parents
& grandparents -

The "meism" growing
calouse & definite
ged all u can - hurry -
children, playing "adults"
meaning w/ experience
& insight gained by
living & doing. you
know: "when I was a child
I thought as a child"
That's what, they DO! -

well our input was w/
3 "children", & now 9
grandchildren — & god,
has - how many - to be
concerned with & trying
to help ALL w/ all different
values & wants & needs -
Bush said, "It's ALL yours -
Now!"
