Dear C-span:

I am completely disgusted with your network, after your segment 12-21-93, with the swine from the American spectator.

It is truly amazing that you allowed those rumors, & allegations too be told as actual facts. It is quite clear, that this is a right wing agenda, which is a attempt too throw up a smoke screen, and your network is part of this cover-up.

I, as well as other concerned American citizens will make certain, that nothing will stop the true stories on Iran Contra, Iraqi, and others from being reported. I still offer a challenge too your network, too have a balance on your shows, of course this would tell you the truth on Reagan, Bush, & North, there-fore may be more than you

could handle, but it is possible
that your network could be better, by
your reading of these books.

2. Spider webb
3. The Big white Lie

Sincerely,
