

We get so depressed with  
all the sex and violence  
on the tube.

I feel so sorry for little  
children and teens, that  
fed the junk!

Even if we had to pay  
more for C Spaw, it  
would be worth it.

Appreciatively  
yours

Thank to your  
fine staff  
Brian Lamb etc.

August 16, 1993

NO. 594 AUG 18 93

Dear C Spaw;

We are faithful viewers  
of your station. It is our  
eyes and ears of import-  
ant doings in the world  
your Sunday evening  
Booknotes is our must  
viewing. Many fine  
authors send me hurry-  
ing to my local library  
or book store

Do continue your fine  
station. There aren't many  
out in T.V. land that  
worth turning into. Nothing  
of substance.

## BLOODROOT

*Sanguinaria canadensis*

Delicate white flowers bloom as the leaves unfold in the spring. The stems and roots yield a colorful red-orange dye. The Bloodroot is found along stream banks and rich woods from Nova Scotia to Florida, west to Kansas.
