Gentlemen:

It is rare that any occasion would arise to criticize C-Span. To give you the benefit of the doubt, Maybe you found yourselves in a position you could not get out of.

Am referring to the Elinor Clift show other night. Either she was not aware of type of program she was on, was campaigning for a White House position ala Gergen, intended to put a dent in Newsweeks' circulation, or something. I would be surprised if at this writing she still has a job. Can you imagine any reader whether Conservative, Democrat, Communist, etc. ever seriously absorbing or even bothering to read any of her future writings.

This writer must be incredibly naive, I thought staff writers elevated to "by-line" status arrived there by objective, factual, reporting. Her stuff, obviously would not be merely slanted but blantant propaganda.

Sincerely,
