Dear Brian -

We LOVE C-Span - True Junkies!
BUT - The new format does
indeed "STINK" as the "lady with
the flowers" so wonderfully
phrased her thoughts! - Many
times since January I've begun
to write letters - and just
couldn't seem to put my finger
on it - Except this gnawing
feeling that C-Span has become
too similar now to the OTHER
networks - My main concern
and thoughts lately have been
SADNESS - that C-Span is
now trying to cater to the
silly-ness of the news and
not just airing events, etc.

as they happen - It almost seems to be more "Commercial" these days - The old C-Span was a Jewel - This new C-Span appears more like "Paste Jewelry" - My Monday's and Friday's now seem to be much less informed - We can always watch Crossfire for a dose of yelling - Oh how I long for more of the "old" C-Span.

As far as the Camera coverage, love to see the wide & open shots - Ask Mr. Gingrich to give you the Camera's!! -

Brian, your old format is what made you great - PLEASE Return to it!! - I've watched faithfully from 1983 - First in Houston then Pennsylvania & now in Corpus Christi - Go back to what you were!! also miss the music!! a true junkie [redacted]
