Dear Editor,

I am somewhat upset over the "GOSSIP" which is being circulated about our "President Bill Clinton."

Bill Clinton, is being made to look and appear bad, by ongoing "GOSSIP", which plagues him and his lovely family. Bill Clinton, is by far the best President our country has been fortunate enough to elect, in many years.

I cannot recall anyone defaming the late President John F. Kennedy for his indiscretions, and accordingly he had many!

It is my opinion, that our President Bill G. Clinton, has come against a corrupt agency in our government, mainly, the IRS (Internal Revenue Service) to name one particular powerful agency.

O. C. / CW

I can positively assure you and your reader's, that the IRS, "Internal Revenue Service" has been rocked off their "Corrupt Monarchy", by our wonderful President, Bill J. Clinton!!!

After maintaining this powerful autonomy for years and years, do you believe that the "Internal Revenue Service" appreciates or agrees with what our President Bill J. Clinton has done to their agency?

I think not!!!

I know positively, that the "Internal Revenue Service" has promoted the gossip about Bill J. Clinton, and not a word of what they have caused the gullible people to believe is true!!!! It is just gossip!!

Bill and Hillary Clinton are the best, the brightest, and the most intelligent leader's to come our way, in many decades.

I feel that the american people are too well off financially, and most have come away from church and the bible so their minds have been infiltrated by error and gossip, which seems to intrigue most bored americans.

It is a moral sin, to tear people apart and to defame a person with idle talk and gossip!!!!

We all must meet our maker one day before we die, and I would warn all who have believed or gossiped about our President Clinton and his lovely wife and family to take a step backwards and look at what they are doing.

History tells us, that many innocent persons have been sent to the death chamber due to error and gossip!

I'll tell you this much, that the american people are much safer and better off with Bill Clinton as our President than one of our late President, "John F. Kennedy's" relatives, who is in the most powerful position in congress, and who allowed a beautiful young woman to drown in his vehicle, which was submerged in only 7 feet of water.

This man who people continue to vote in as a U. S. Senator, is in reality a murder^{ER}, and a coward, and yet he is sitting, serving, and being re-elected year after year!

Tell me, is this the type of leader that you really want Ms. Lanette Bonamico"????

It is very sad that our young people have no idea of just what this powerful Senator has done to his family and to the young lady, who he allowed to die in 7 feet of water, at "Chappaquiddick", which is a town located at the cape in Boston, Massachusetts.

Take a brief look at his nephews and male relatives who shun the law, and are allowed to commit grave crimes against women, and children and wives.

I would say that the "Kennedy's" of Boston, Massachusetts, have made it look bad for men, however, the manner by which the voter's continue to vote in criminals, it is apparent that people do not really want honest and intelligent leadership for our country.

Just what, do all you people, out there, expect would happen to all of us, should "Edward Ted Kennedy" be voted in as our next president???

In my opinion, in case of war here on our land, in this great country, Ted Kennedy, would be the first one to leave us, and escape, to a safe haven!

If Senator "Ted Kennedy" was coward enough to allow his beautiful young Secretary, who worked on the "Kennedy Campaigns", to drown in only 7 Feet of water, because he was worried about the gossip and what it would do to his upcoming campaigns, what in God's sake do you think he would do for us, the people of this country, in case of "WAR"??

"Ted Kennedy is a coward, and unfit to sit in congress!!!
Our President Bill Clinton is a powerful figure, a devout Christian, a good husband and father, and the best of leaders we have had in years, and yet most of you the people are crucifying him, in believing pure gossip!!!!
Why don't you who appear to be so bored and unintelligent that you would believe anything, go and read the "Enquirer" or better yet, read the many books that have been written by honest reporters concerning what "Senator Ted Kennedy" has gotten away with for almost 30 years.!!!!

I would strongly suggest that all of the people who are so very interested in gossiping about our President Bill Clinton, take a trip over to your local "Bookstore" Barnes and Nobel, located in Naples, Florida and request all of the many books written on the truth of the "Kennedy's" of Massachusetts.

I am sure that after reading these books and calling the parents of the girl "Ted Kennedy" left to suffocate in his automobile, in only 7 feet of water, will truly enlighten your minds and cause you to become sane again! After reading these books, you will all write letters of apology to Bill Clinton and his family.

Sincerely,
