INFLATION IS "MODERN MONEY"

WHAT IS THE "DOLLAR" TODAY?

002594 JUN 293

002594 JUN 293

July 4, 1993....a call for real action--to Win the battle!

**What must be done ?
What is the problem?**

Can the U. S. A. survive as a free nation? As an Independent Constitutional Republic? Can we preserve our Free Enterprise economic system? Can we ever return to an "honest money" banking system? What "forces" are at work trying to destroy our unique Political & Economic Heritage?

Are these political issues just false distractions to keep our citizens misinformed, and ineffective: Balanced Budget Amend. Line item veto, Term limit, 3rd party movements, etc.

Ross Perot? What is he really trying to accomplish? Can we truly educate the 20 + million who voted for him?

Rush Limbaugh? Is he the new "Liberal"'s House Conservative? Or, is he just what he says he is, an "entertainer"? Can we educate his followers?

The Nat'l Debt! now totals over \$4.1 Trillion "dollars".

What will it total by 1997? by 2001? The yrly. Deficits run \$1 billion/day. Why? Who is responsible? Why do we not hold them "accountable"? (Congress is guilty, not just the Pres)

Inflation is "Modern Money" No "dollars" exist today. the dollar is a "fiction of law", all money utilized today is debt-based, all imaginary, all fiat! Auditing the Federal Res. System, or reforming it will not be the solution. It must be abolished! We must restore the Constitutional Dollar! Fractional Reserve banking must be abolished. I don't think Ross Perot understands the "money issue", and Rush Limbaugh won't talk about it. Why not? UNTIL we restore Honest Money, all other political or economic efforts/reforms will not work. Money is Power.

3rd Party political efforts, will not work. Election law reforms are vital. Both major political parties are controlled by the CFR. The CFR has/does control our Fed. Gov't & Banks, as well as the news media. So how are the citizens ever going to learn the TRUTH? Our educ. system has failed us. Wake up, & get off the treadmill to oblivion, otherwise you will be a slave & not know it!

This book is a must...

Dr. Yiamouyiannis is a world-leading authority on the biological effects of fluoride.

In his book, *Fluoride, The Aging Factor*, Dr. Yiamouyiannis presents the clinical evidence showing that fluoride brings about the visible symptoms of aging. He shows how fluoride damages the body's repair and rejuvenation system before the symptoms of aging actually occur—and how they can be avoided. He shows why many of the professional organizations and agencies we rely on for health information promote the addition of fluoride to public water systems—and why they campaign to stop the removal of fluoride from drinking water, even in areas where they admit fluoride is having harmful effects.

While this book is easy to read and is written primarily for a general audience, it contains the scientific evidence that supports the age-accelerating effects of fluoride. In a review, the scientific journal, *Chemistry in Britain*, points out "the book makes some very valid points, supported by an impressive collection of references... knowing now what we do of the behaviour of fluoride in aqueous solution, few chemists would advocate adding it to drinking water."

The January 1986 issue of the *British Dental Journal* advised readers to "Read this book as a warning rather than for its scientific content, whether you believe in fluoridation or not."

The Centers for Disease Control points out, "Dr. Yiamouyiannis is conversant with the literature."

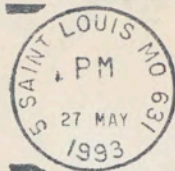

In counseling dentists who promote fluoridation, the American Dental Association advises, "Running up against Dr. Yiamouyiannis is not recommended."
