

To: C-Span + Crossfire Sept. 27, 1992

I am sick and tired of C-Span and Crossfire featuring Clinton all the time.

I have just time in to C-Span only to see Curvel on with Evans + Novak - This guy is not only crazy but looks to be in drugs

How come Crossfire has made no comment on Ref. Darnan Statement on C-Span that Clinton is not a Rhodes Scholar and has no degree at Oxford

This is to let you know that not all Americans are in lane with Clinton - He faults all the news media but not the smart people in the United States
