"Hi Folks: I LIKE C-SPAN BECAUSE:

"My hat is off to you folks, you have quite a cable system. Three cheers for C-Span for bring us altogeather, by the way of communication and bringing ones views from all sections of the country. North, East, West and South. You take the first letter of those four words and it spells

NEWS. And that is the kind of news I like. Tuning

into your station has gotten to be a steady habit with the wife and I. As I think you will agree no two people alike, we all come from different religions and occupations. To put our differences aside and still make this the greatest country on earth. To me C-SPAN reminds me of a musical

program, I listened to back in the 1930's. It came on "Saturday night", they called it the "Lucky Strike Hit Parade. Which makes you people number "one" on the Hit Parade for bring<sup>ING</sup> us all closer together.

"Good Luck to you and your organization, yours is just like a breath of fresh air.
