"I Watch C-Span Because..."

Because I value exceedingly the privilege of viewing C-Span, I want to say so on this occasion of its fifth anniversary, and thus have a part in the celebration.

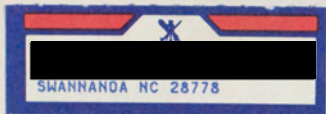

The persons to whom C-Span owes its Creation have given to our nation a vehicle which binds together all of us who participate, in a unique way. Its value to us as individuals and to our Nation is immeasurable.

I watch C-Span because its program content is interesting, informing, entertaining, and fascinating. I become informed as to what people throughout our nation are thinking on issues, and of their concerns. It is of value to me to observe my democratic government in action and to be made aware of the problems or issues which concern us all.

My deep gratitude is extended to all persons who have any part in the production of C-Span. You are a very capable bunch - M.C.'s, technicians, program planners, and all the others involved. You do a super job.

The ^{present} program content of C-Span could never become dull to American Citizens. Thus I'm wishing a profitable fifth anniversary celebration, and many, many more to come. (192 words)

Sincerely,

C-Span, The Cable Satellite Public Affairs Network
