Dear Sirs:

C-Span has received a very favorable review within the October issue of the American Irish Newsletter - American Irish Political Education Committee - for its production on the politics in Northern Ireland.

Though to my understanding only a few people have had the opportunity to view the production to date, the PEC has initially concluded that a serious attempt has been made by C-Span to allow all sides of this conflict to express themselves.

We commend C-Span for taking initiative on this matter and trust that the potential benefits of breaking through the information barrier regarding Northern Ireland far outweigh the potential hazards.

With all our very best wishes.

Sincerely,

[REDACTED]
