NOV 20 90 Subject: Discrimination

1. Women who stay home and raise a family are "d" against. They should be included on the SS program — pay a small amount of tax and get benefits. They did the work of several jobs with long, long hours day & night.

2. Women who work do not get as much as men at the same job.

3. Women and children so many times in Court cases are not given equal consideration or protection.

4. Unskilled minorities are given precedence over skilled and experienced white workers.

5. "Natch" people are blatantly "d" against by SS of certain ages. Congress has advertised & admitted making a mistake years ago, but can't seem to find or make time or effort to correct the mistake. Pass a bad bill and then correct it? Never! But Congress could hurry up and pass a bill the 1st thing Jan. 1990 to help Chinese students in the U.S. and cut funds for our College age students in 1991 budget.

6. As a Victim of #1, 2, 3, 7, 8, 9, 10 and more I have had to resort to help from SSI, Food Stamps, Medicaid, etc. for necessities.

Thank Heavens for the help I was able to survive so far.

7. U.S. Citizens have been "d" against by government officials and Congress by worrying about foreigners instead of

Legitimate responsibilities by pushing the "Cold War" is over. Not admitting or protecting our health from the "Cold War". Doesn't it mean "Cold War" even if it still comes on us now from foreign sources? Doesn't it cause heart attacks, Cancer, lung congestion, Alzheimer, strokes, diabetes, Cataracts, and a multitude of other expensive health problems; hence, the excessive rising costs of Medicare? See Budgeteers!

8. Remember "the old woman who lived in a shoe"? Excessive immigration quotas and illegal sneak-ins have flooded our Medicaid and Medicare rolls as well as financial assistance rolls? Example: Cubans, even criminals, we support, millions of Mexican illegals, besides 700,000 a year of ill, etc. See Budgeteers! "d"!

9. Government officials including Congress carry & support any foreign Country and burden the tax paying Citizens. Example: The 400 M \$ sent to Israel recently while cutting our help. Sending M \$ 5 to Russia for a hospital to help atomic plant melt down exposed people & cutting down on help to A.S. still being exposed by the "Cold War" harm to our health. Russia can help its own kids. "d"! Quit pampering Russia!

10. Government officials and Congress should not send an Ambassador to the Vatican, which is against our Constitution, I believe. That would save millions on our Tax payers. That would lower the National Debt. See Budgeteers! "d"!

P.S. Government officials and Congress

1. We got the message from your actions that you hate U.S. Citizens and love foreigners!
2. Restore S.D.I. funds!
3. Cut C.I.A. funds! Example: La Castro, Noriega, Hussein!
4. Cut guaranteed loans to foreign countries! How absurd! Clear?
See Budgeteers!
