Dear Friends,

We Consider C-SPAN the most informative, impartial and useful Channel on TV. It is absolutely essential for the general public's education - presenting an impartial and broad viewpoint. The manipulative-PR approach to all things in the media cries out for the unbiased truth - C-SPAN is the nearest thing to achieve this.

The King Cable Co. ^(sold about 1 yr ago) ~~in Seattle~~ has removed C-Span from our Choices on their system. They say it is because of government requirements that they had to drop C-SPAN. But what a trash pile of Channels they have replaced it with!

What can be done about this deplorable decision?

Sincerely,
