The recent bashing of an Israeli journalist on your show on Wed. morning (Dec. 23rd) prompted me to write this letter.

One of the callers claimed that fundamentalism on the part of Zionists prompts the same from the Arabs; another that Americans saved Holocaust survivors during WW II and that Israel wasn't equally kind to others, especially black Americans of a particular sect. Yet a third said the U.S. shouldn't give money to Israel because Israel's kill children.

First of all, there are 20 Arab countries in the world and only one Jewish State: the State of Israel, which has existed in actuality or in the hearts of the Jewish people for several thousand years. Secondly, Israel helps people all over the world; ~~they~~ ^{she} offered to help Iran during their earthquake and Somalia recently don't were turned down due to the fact that these are Islamic States. ~~That's~~ The U.S. and Allies did not set out to ^{rescue} ~~save~~ Jews in concentration camps but to stop the spread of fascism in Europe. This was just a byproduct. ~~If Germany had~~ If all the Jews in the world had lived in Germany during WW II and Germany had decided to kill all of them very few people would have called.

Last of all, the Israelis don't have it as an objective
to kill children or anyone else. If the type of internal and
external threats existed in the U.S, which the Israelis have had
to contend with for all these years we would have to live
under martial law here and sometimes ~~tragedies~~ ^{tragedies} would occur.
It would be nice to have more fairness and empathy for
all sides of ~~this~~ ^{this} issue for a change.

Sincerely,

[REDACTED]
